 - C. Annual Report. Lauren: wanted to mention so it didn't sneak up on us. In the past have used a divide-and-conquer approach. Jason: ordinance has been changed to make the report more relevant to current Treadwell functions. Recommend setting a meeting not too far in the future to get started on this.
 - D. TAAB goals
- VI. STAFF REPORTS
 - A. 2021-22 season update & upcoming events. Overall season going well. Everything a bit scaled down but all user groups seem content skating even with COVID-19 rules. Rink parent/tot helping fill the gap of JSC not teaching little kids this season. JAHA is back after a season of just drop-in hockey, though numbers are not as high as in the past. Open skate was 40-person limit; facility capacity now will be 285 capacity. JDHS team had a season. JSC planning to have a show with the half-capacity limit.

George: Lauren and staff did a great job navigating the constantly changing COVID-19 rules. Came in nearly \$1 million under budget for P&R, including Treadwell. It reflects a staffing shortage across the department including Treadwell.

Lauren: even with increased capacity allowed the public sessions will still be capped at 40 people.
 - B. Rink Rules updated
 - C. Programming update
 - 1. 3rd/4th grade annual pass Have not really seen a lot of those skaters taking advantage of this, but will continue with the program.
 - 2. Winter Pass this has gone well. Lots of rink users taking advantage.
 - 3. Skating with the Schools not much last year but coming back this year. Now it's 1 class at a time instead of the previous class size of 60.
